WEEK 3 TECHNICAL PROGRESS REPORT

Data Acquisition — RERA, JMC and Revenue Records
Course: COM-711 (Minor Project) | Academic Session 2026-2027

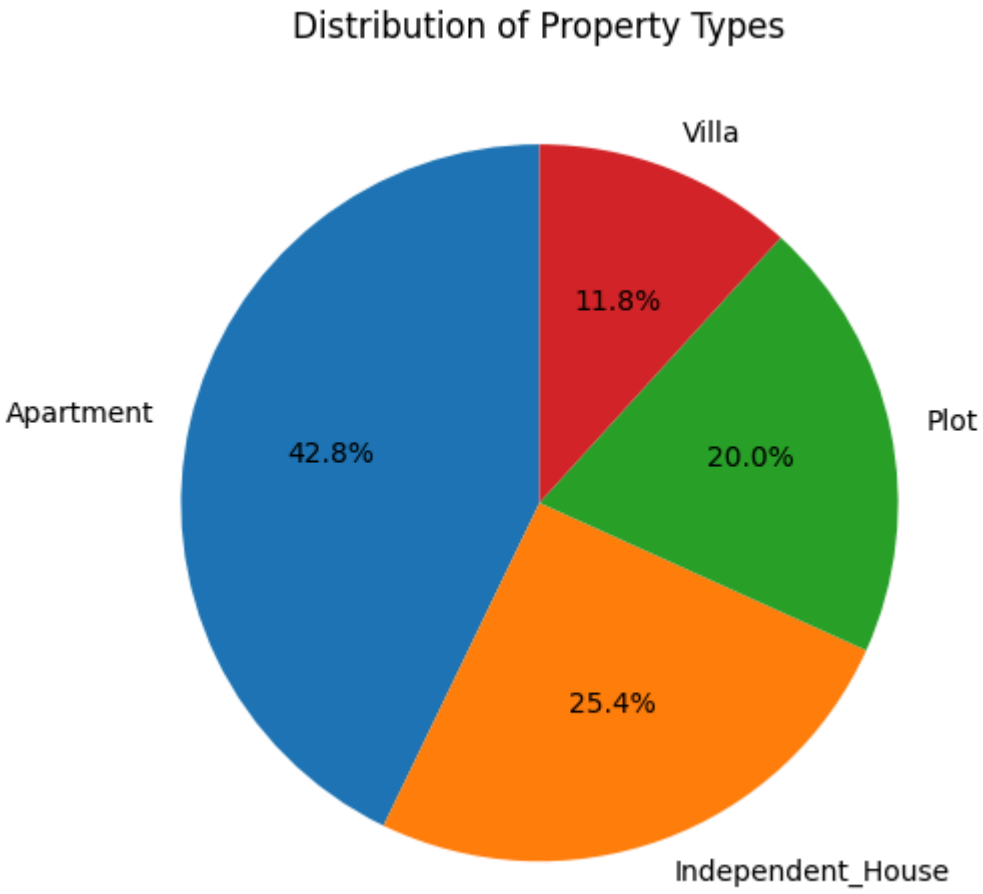

---

1. Executive Summary & Objective

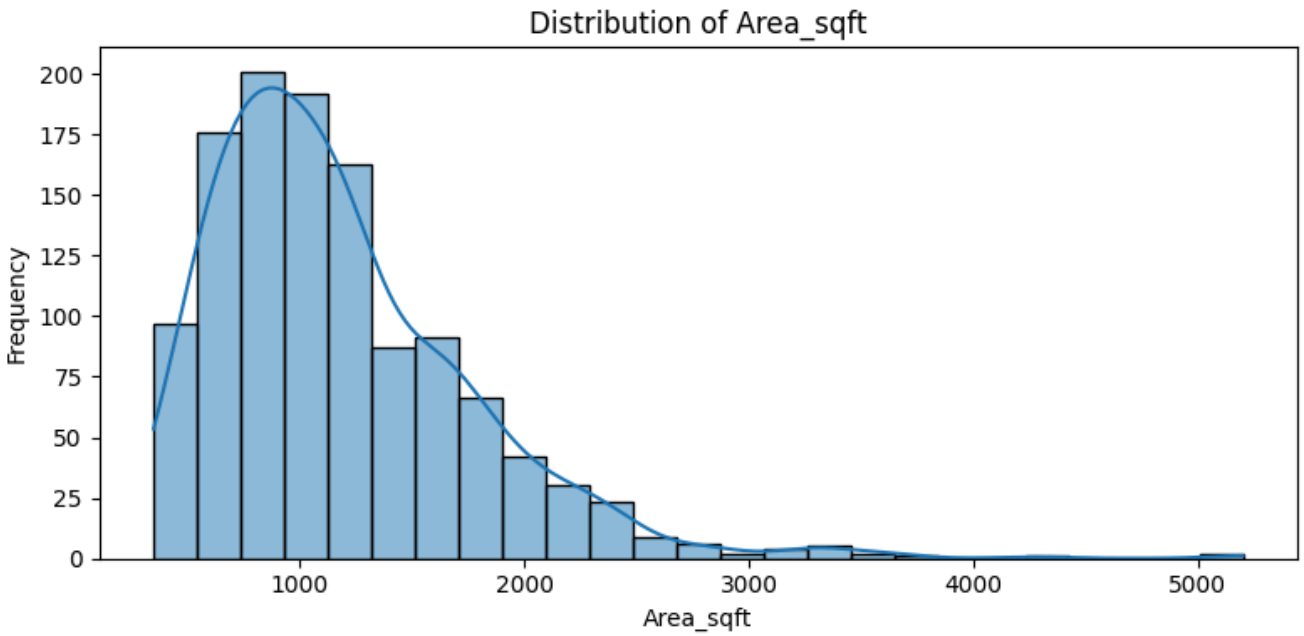

Week 3 focused on Cleaned dataset, preprocessing pipeline, EDA graphs and data-quality report.

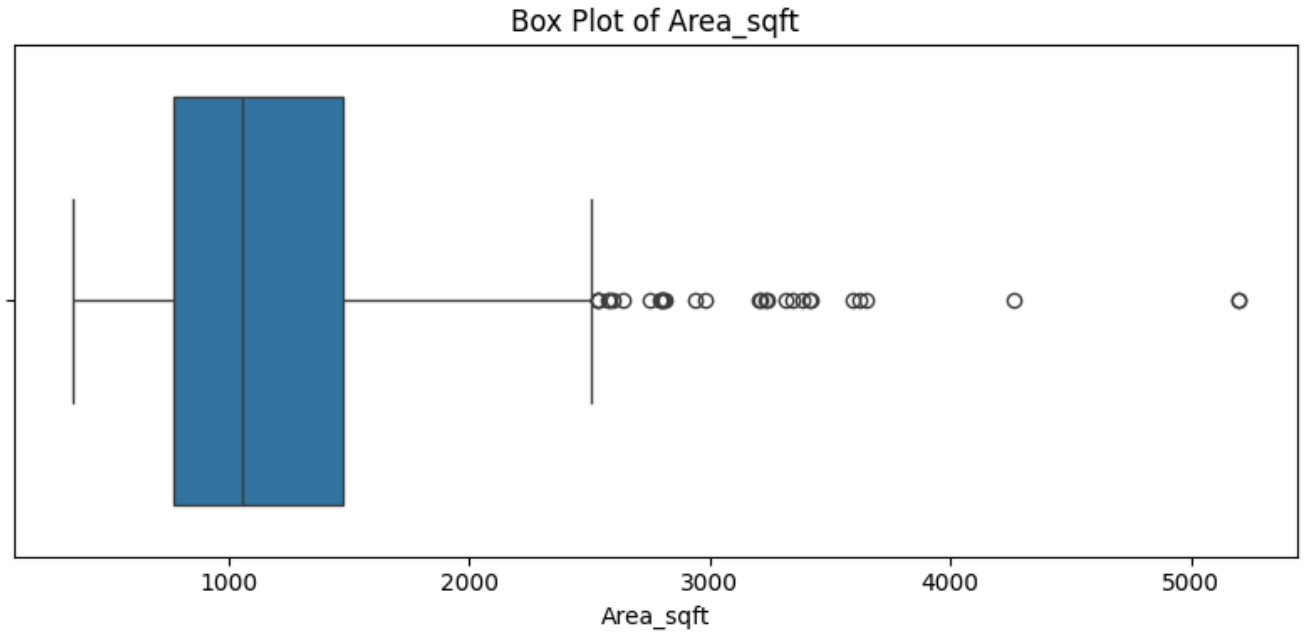

Tasks

- Handle missing values, duplicates and invalid records.
- Encode categorical variables and scale numerical variables where appropriate.
- Perform outlier analysis and check for data leakage.
- Visualize price distributions, locality-wise trends, feature correlations and risk distributions.
- Split data into training, validation and test sets before fitting preprocessing steps.
